Dynamic Ice Summer Program

The Dynamic Ice Summer program is a 6-week long training camp for figure skaters which aims to provide effective programming for all skating levels and disciplines. Our various programs have been developed to give our skaters a truly unique experience in a safe and structured environment. The Dynamic Ice Summer program reaches far beyond the standard on-ice and off-ice components of other regular summer skating programs and encourages a fun and team-orientated learning environment for all.

Our program also emphasizes well-rounded sport performance training through organized off-ice programs in the areas of fitness, flexibility & stretch, dance, sport psychology, creative expression and nutrition. All of which are designed to complement the skater's on-ice training. We are also very excited to be able to include wall-climbing with instruction in our off-ice program.

Participants will also have the opportunity to access a multitude of on-ice resources including video analysis, moveable jump harness, dance partnering and choreography lessons. Competition simulations will also be included each week throughout the 6-weeks.
